Name: Jonathan S. Ressler
Street: 18631 Springs Rd
City, State, Zip: Jeffersonton, VA 22724
Phone Number:
Email: emailjon752@yahoo.com
Utility Type: electric

Company Name: Placing Utility Distribution Lines Underground

Comments: My wife and I recently purchased a piece of property in Culpeper county the has a set of lines running along the one boundry. We bought the property knowing the lines were there and knowing that it will effect our lives now and in the future. I tried to research as much as possible regaurding the medical concerns with these type of lines in the area around a residence and children, but most of the information was conflicting. We hope to have children in the near future and it will always be a concern of mine weither my choice to buy this piece of property could somehow damage my childrens future or not. This is not to mention the effect that these lines have on the overall appierence of the countryside and property values that they run through/near. My family and the family of my father-in-law's family will be clearly and perminantly effected by the decisions made regaurding this issue as that we each own property that has these type of power lines running thro ugh it. I don't know that I have any answers regaurding how to pay for burying the lines or who should pay for it. I know that I do not feel like I have any "extra" money to help, but just the same I am willing to look into having a special tax or service fee attached to pay back the loans needed to do this type of work. Just because a property owner/tax payer doesn't have the lines on his/her property doesn't mean the at they lines do not run past his childs school, ball field or friends house. Please keep me informed as to the status of this proposal and feel free to contact me if I can be of any assistance in the future.
